GOMPERS ARMS TO ALLY LABOR

They Must Get Closer, He Says, So That They be Not Crushed

FOR DISARMAMENT

Urged a Commission to Report to Congress Plans for Railroads—Total of 3,906,528 Members

Denver, Col., June 14.—Samuel Gompers opened the forty-first annual convention of the American Federation of Labor yesterday with a call for unity between the farmers and those employed in mills, mines and factories and on railroads.

"The enemies of the workers in industry," he said, "are at work also in trying to drive back the position secured by the farmers of our country in these past few years. We must get nearer and closer to the men engaged in the agricultural work of America. The farmers, the men engaged in agriculture, the men engaged in industry must have a closer alliance and co-operation in order that we shall not be crushed by the reaction of captains of industry or princes of finance.

"You know that there is a drive being made to wipe out or to weaken the Department of Labor and also to destroy the Department of Agriculture. Think of that. Under the pretense of trying to create a Department of Public Welfare, it is seriously proposed to destroy the Department of Labor and the Department of Agriculture, the only two departments in the Government that represent at all the producers of the wealth of our country."

Mr. Gompers congratulated organized labor on having successfully withstood the attacks of the open-shop elements.

In the past there has been much talk of unity of farmers and organized labor. Usually it has been made without the Federation and more often than not by persons not in position to speak for it. The significance of today's declaration is that for the first time a responsible officer of the federation made it the keynote of his address.

Ranking with this in importance were declarations of the Federation through its executive council, for general disarmament and for the appointment of a commission of 15 to investigate and report to Congress plans for the handling of the railroads. This latter scheme, built on the plan of the Warfield Committee of Railroad Security Owners, calls for five of the commission to be named by stockholders in the roads, five by organized labor and five to be appointed by the President to represent the general public.

The recommendation for disarmament is supplemented by a resolution presented by Peter J. Brady, in the name of the Central Trades and Labor Council, of New York, calling for a conference of the powers to end the naval race between the United States, Great Britain and Japan. Such a conference, the resolution points out paves the way for a direct step in the direction of general disarmament.

The report of the executive council was presented by James Duncan of Quincy, Mass., first vice-president. It covered the many important issues confronting organized labor — the "open shop," wage reductions, Irish question, relations with foreign trade union movements, anti-labor legislation, immigration, high cost of living, railroad situation and scores of other major problems. This report with its recommendations was immediately referred to committees for consideration.

While the annual report of Secretary Frank Morrison showed the membership of the Federation to be 3,906,528, as compared with 4,078,740 in 1920, it was stated that the ranks of organized labor had increased, as this report did not include thousands of members now involved in strikes or lockouts or unemployed.

The secretary's report showed that there had been 1,635 strikes during the year, involving 191,934 members costing 8,462,174. The federation defense fund showed a balance of 161,217.

Russia, bolshevism and the "Reds" generally probably will have the centre of the stage tomorrow, when James H. Thomas, fraternal delegate from the British Trades Union Congress, speaks. It will be the first public declaration of Thomas in this country, and because of his position abroad and his part in the British miners' strike may easily be of international importance.

SEEK THIEF LOOTING ATLANTIC CITY BANK

Atlantic City, June 14.—City and private detectives are seeking to locate a daring sneak thief who stole a package of bills of large denomination from the receiving teller's cage at the Chessea National Bank during the noon rush hour. The package contained about $2000.

The robbery, which occurred within two doors of police headquarters, is one of the boldest recorded here. The thief evidently timed his movements so that but one teller was on duty and the bank was nearly emptied of patrons. When the teller turned his back it is believed the man reached under the grill and seized the money. The loss was not discovered until nearly an hour later, when the police were summoned. It is expected that an arrest will be made within a short time.

Gym Classes Close

Pioneer of Y Plan Camp Trip—Other Notes

The two gymnasium classes of the Y. M. C. A., closed at the Young People's Building last night after an eleven weeks' session. The Pioneers that have had a meeting at 7 o'clock each Monday evening had a final session finished by having their class photograph taken.

Although all of the Pioneers were not present, twenty of them indicated that they would attend Camp Rust this summer. The weekly meetings of the troops will continue as usual until the camp.

The ladies class under the Ladies Auxiliary also closed until fall. The class has had a splendid enrollment and attendance and the Auxiliary has decided to continue the work next fall through its educational department.

The class also had a class photograph taken last night, after which delicious refreshments were served. Most of the ladies will continue the physical training through the summer, some at tennis and others at swimming.

Secretary Wallace, who has been conducting the gymnasium classes has had the services of an additional physical director volunteered for the continuance of the work this fall and the work will doubtless be very much extended.

Children's Playgrounds

Some five years ago a committee of public-spirited women met in the Washington School with Mrs. T. Clifton Howard. Tradition has it that George Washington gave the land for this school, from whom it took its name, and on it was erected the first free school in the United States. It was therefore a matter of patriotic sentiment with these ladies that they should meet at this historic spot, to accomplish the purpose they had in view. Their object was to establish a children's playground, and they succeeded in persuading the School Board to give them the use of the grounds is so far as it would not interfere with the pupils. They used these grounds for two years, and in honor of the school's founder, and in order to raise funds for their project, they established what is now known as "Cherry Day," on the 22d of February each year. On this day cherries are sold on the streets to passers-by, and the proceeds are used to further the objects of the Playgrounds Association.

The Washington School grounds were thus utilized for two years, and then the Association moved to the Lee School, which they have used for the past three years They found, however, that an annual charge of fifty dollars per annum for alleged broken windows, was more than their slender treasury could stand, so last year they decided to move to other quarters.

They have been able to secure a plot of land on Queen street, between Columbus and Washington, adjacent to what was formerly known as the Friends' Burying Ground. Through the great courtesy of Mr. Laurence Stabler and other members of the Society of Friends, they now have the use of a sufficient plot of land to allow them to carry out long-cherished plans for the benefit of the children of the city and their mothers. Mayor Duncan has generously undertaken to clean up the grounds and put them in proper condition, by the use of the prison-labor. The Playgrounds Association, for so it is called, is composed of the following members: Mrs. T. Clifton Howard, chairman; Mrs. Marshall Jones, secretary; Mr. Taylor Burke, treasurer; and Mrs. Wm. J. Morton, Mrs. James Duncan, Mrs. Albert Dreifus and Mr. Harry Kirk, as members of the directorate.

This is the first real playground that the Association has obtained, and the intention is to employ a young lady as a supervisor, to direct the sports of the children and arrange for the comfort of the mothers who bring their babies. Hammocks for these little tots, sliding boards, see-saws, and in fact all the apparatus usually provided for the purpose, are included in the plans of the Association.

Money is necessary for this noble philanthropy, and as the hot days of July and August are drawing nigh the need is becoming urgent. The only resource, as stated, is the sale of cherries on Washington's birthday aside from the funds donated and procured by the members of the association. Surely there are many people in Alexandria who have but to learn of this worthy institution in our midst to respond quickly and cheerfully to the call. A few hundred dollars will bring joy to the childhood in our city; will afford tired mothers many an hour of needed rest this summer; will give the babies the life-saving fresh air they need; and thus prove a practical blessing right here at home.

Donations may be made to any of the members whose names we have given. We hope that those who read this plea, will not only give, themselves, but see to it that their neighbors learn of the matter. Whatever can be given will be gratefully received, we feel sure. Those who can give a dollar should do it; those, who, fortunately, can give more, should do it and thank heaven for the opportunity! It is a gift that is twice-blessed; it blesses him who gives and them who receive!

Pirated Honey Stock Commandeered by Bees

Milford, N. J., June 14.—For several weeks Wallace Lanning, of Evirit town, has had the opinion that he was the owner of the thriftiest lot of honey-makers in several counties. Lanning placed more than a hundred pounds of honey in the comb in his attic, expecting to get big prices for it in the early summer.

When he went to the garret to get it he found nothing but empty combs and frames. The bees had discovered the hiding place, having obtained access to the attic through a knothole in the wall, and had drained away every drop of the stored honey, taking it back to their hives.

He's 72, But Strong For One-Uiece Suits

Somers Point, N. J., June 14.—Mayor "Bob" Crissey's invitation to one-piece bathing girls to come to this beach was accepted yesterday by 500 young women. The 72-year-old Mayor strolled along the ocean, looking over the costumes. It wa sthe first time he ha dever seen a one-piece suit.

"I don't see anything improper in it," was his comment, "and I don't understand why it has been prohibited in Atlantic City. I'm going to get one for my wife."

Parrot Essays Role Of Traffic Officer

Chicago, June 14.—They were "green" cops, all right, both as to knowledge of traffic rules and as to color. All during Sunday when thousands of automobiles were rushing through Evanston the drivers were disconcerted by continuous orders from an unseen officer—"not so fast—go slow—stop."

Traffic was jammed for blocks while irate chauffeurs sought to find the reason for the snarl. Lamentations became so loud that the chief of police dispatched his reserves to solve the mystery. They finally found a great green parrot swinging in a tree. The parrot was issuing the orders for the cars to slow down and stop and in a neighboring tree a big pet white owl was whistling with the result that motorists were at a loss whether to go ahead or stop.

Hol dAlleged Kidnapers Under Bond

New York June 14.—Five men charged with kidnaping 5-year-old Giuseppi Verotta, whose body was found in the Hudson Saturday, today were held in bond of $100,000 each after the district attorney's office had tried to have them detained without bail.

AH! EPSOM SALT LIKE LEMONADE

You can now buy epsom salts without the awful taste and nausea, by asking your druggist for a handy package of "Epsonade Salts" which looks and acts exactly like epsom salts, because it is real epsom salts combined with fruit derivative salts, giving it the taste of sparkling lemonade.

Try it when bilious, headachy or constipated. Costs but a few cents.

Warning! Don't just ask for "tasteless epsom salts" or you may get a soda imitation. Always ask for "Epsonade Salts" and look for the name, American Epsom Association.

Ad Men Make Plea For Greater Advertising

tlanta, Ga., June 14.—Proposals for the associatid advertising clubs of the world to select some central city for a permanent convention place failed of approval at the convention here today, sentiment appearing to be almost unanimous among the delegates present for the system of meeting in different cities.

A motion to authorize the association's eecutive committee to place before the convention a resolution fixing some central place, preferrably Chicago, as permanent headquarters and regular conventon site, was tabled with scarcely a dissenting vote.

The opening session this morning after formal welcoming addresses and replies was marked by optimistic addresses by United States Senator Edge, of New Jersey, and Archer W. Douglas, St. Louis, Senator Edge outlined opportunities for reaching world markets, and Mr. Douglas, while declaring he could not see any immediate change in business conditions, expressed the opinion that a gradual improvement was due this fall.

Pleas for more and better advertising by investment houses and bankers were made by A. E. Bryson, of Chicago, speaking this afternoon before the financial advertising division of the convention.

"If industry is to have the funds it needs for its proper development and if the public is to enjoy protection against the machinations of the blue sky stock salesman, the legitimate investment house and banker must use more advertising and better advertising," declared Mr. Bryson.

"Never was advertising needed by financial houses as it is today," he said, "because of the great change in the bond market. Not many years ago there were but a few bond buyers and the average sale was many thousands of dollars. Now there are many buyers and the average sale is $3,000 or less.

IN fact, the New Perfection Oil Cook Stove does all kinds of cooking perfectly and economically. With a New Perfection Oven it is possible to bake the fluffiest of cakes and light, crisply-browned biscuits.

Note the long blue chimney on each New Perfection burner. This provides a draught which drives clean heat produced by the white-tipped flame forcibly against the cooking utensil, without sooting it. Soot is simply good heat gone to waste.

And remember that the white-tipped flame gives the most heat. Through the mica door in the chimney you can always see the flame and wick and adjust them in a second.

Busy housekeepers appreciate the small amount of attention that the New Perfection requires. No coal or wood to bring in, no ashes or litter to sweep up and take out. It stands up well above the floor and you can dust under and around it in an instant. Select the four-burner size with cabinet top and New Perfection Oven. It is made also in five, three, two and one-burner sizes for any who prefer them.

You will always get perfect results from your oil stove if you use Aladdin Security Oil—it's pure kerosene.

SPORTS

The Destroyers A. C., journeyed to Washington yesterday and were defeated by the Aztec A. C., 9 to 8 in an 11 inning game. The contest was exciting throughout, two homers and a triple being poled. The Destroyers played air tight ball, as did their opponents, but the D's did not get the breaks. After the fifth inning it was a pitchers battle between Stover for the D's and McIntyre for the Aztecs with Stover having the better of the going. In the fifth inning the Destroyers went on a batting rampage with the score of 7 to 0 against them and secured 7 runs. From then on until the ninth the score stood 7 all, when the Aztec hooked a run by a shoot fly ball in left field that both fielder Cornell and shortstop Lane allowed to drop between them.

But with 2 men out and 2 strikes on, Snellings, the pitcher, made a mistake by putting the ball across the plate for Snelling pulled a "Babe Ruth" and tied the score. The hit is supposed to be the longest made on the monument lot this season, as the ball traveled from 17 street and hit an automobile traveling around the monument, a distance of two block. The hitting of Wood and Ludlow featured for the D's, Whitestone was a live wire around second base, easily handling everything coming his way. Lash behind the bat for the D's showed the Washington lads up when it came to throwing to second base as eight men tried to steal the bag and only two reached there. He also secured two hits out of four tries. The D's had the following line up: Snellings, 1B; Whitestone, 2B; Ludlow, 3B; Lane, S S.; Cockrll, rf., Wood, cf; Dreifus, lf; Lash, c; Stover, p.

Gas Buggies---There's a reason for everything

By Beck

WOMAN SHOOTS MAN, THEN KILLS HERSELF

Pittsburgh, June 14.—"You have made me suffer, and now I am going to make you suffer."

With these words Miss Elsie Wilsoncroft, 22, of North Dravesburg, drew a revolver and fired a bullet close to the heart of Charles Speidel, 26, of McKeesport, yesterday afternoon in his home, then fired three bullets into her own body.

Mrs. Speidel, in an adjoining room, heard the shots, and rushed out of the house, returning a short time later with Dr. [illegible]. Lying upon the floor, with blood streaming from their wounds, were Miss Wilsoncroft and Speidel, the girl already dead. Upon seeing his wife and the doctor enter, Speidel said.

"She shot me and then herself."

Speidel was taken to the McKeesport Hospital, where he died one hour later. Of the three bullets with which Miss Wilsoncroft ended her life, two entered her breast and one her throat.

The tragedy was the outcome of a love affair between Miss Wilsoncroft and Speidel, who is said to have represented himself as having been divorced, when in reality he had a wife and one child living in McKeesport. A friend of Miss Wilsoncroft acquainted her with the facts.

Miss Wilsoncroft, to verify the statement of her friend, yesterday afternoon went to the man's home and was admitted by Mrs. Speidel. She told what she had heard and Mrs Speidel confirmed the girl's fears, telling her that she was Speidel's wife and that she had one son.

Speidel, a high salaried employe of the McKeesport Tinplate Company, entered the room where the two women were conversing. Mrs. Speidel left to give the two a chance to talk privately, staying in an adjoining room.

For a short time they conversed in low tones. Then Miss Wilsoncroft raised her voice and blamed Speidel for making her suffer. The shots followed in quick succession.

Speidel and his wife had been living together for the last two weeks, following a supposed reconciliation. Speidel applied for a divorce, which was refused.

Why are You Waiting?

A message to the retailers, wholesalers and manufacturers of this city.

WHO IS this mysterious "everybody else" that you are waiting for—that your neighbor merchant is waiting for, that your salesmen are waiting for?

This reluctant buyer is your salesman, your neighbor, yourself.

There is plenty of money in the country—all the experts agree on that. There is a willingness to buy—FOLKS are merely waiting to see how badly WE want to sell.

But many salesmen still act as if they had lost faith in their goods—many executives are simply "marking time."

All that business needs is for someone to give it a push and start it going.

The man who shows faith in his business by spending his own money is going to arouse faith in others.

We believe it. We are showing our own faith by buying this space to urge you to join us in starting something in this community—and other Burroughs offices, the country over, are doing the same thing.

Let us all begin today, by buying the things we need, and our business needs, and let us sell with old-fashioned, hearty optimism and enthusiasm.

Let us stop saying, "Wait until everybody else begins to buy, then I will." Why not begin now?

GIRLS! BLEACH SKIN WHITE WITH LEMON

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

VIRGINIA NEWS

The University of Virginia is preparing for what promises to be the largest summer school in its history. There will be two terms; the first beginning June 20 and closing July 30, the second extending from August 1 to September 3. Already the applications for accommodations for the first term are far in excess o fany previous year at a corresponding date. Notwithstanding the fact that full use will be made of all the dormitories and practically all the fraternity houses and that the usual boarding houses will all be open canvass of the situation a few days ago revealed the fact that there are very few vacancies in any of them and applications are coming in large numbers every day. The students are expected, according to Dean Charles G. Maphis of the summer quarter, from 35 or 40 different states and from several foreign countries.

After listening to the pleas of a number of speakers for State unity and the elimination of sectionalism, the more than 150 delegates who attended the meeting of the Hampton Roads Port Commission in the chamber of the House of Delegates yesterday afternoon authorized N. D. Maher, chairman, to name a committee for the purpose of forming a State-wide organization whose aim shall be the development and expansion of the port for the benefit of the entire State. Chairman Maher announced that he would appoint members of the committee after he had given the matter the most mature consideration.

Much interest has been aroused in Appomattax county over a report that gold has been found on land in the northeastern part of the county owned by Mrs. Brown, a resident of Chicago. A deed of trust for $33,000 as a lien on the land, which has just been recorded in the clerk's office of that county, has given rise to much speculation. Several years ago, it is reported, sufficient gold was taken from the land to make several rings and it is believed that recent investigations have led to discovery of the metal in paying quantities on the land.

Norfolk—About $250,000 was lost yesterday morning when a government viaduct at the United States army base, here, burned. The fire originated in a tar preparation covering the timers. Street car communication with the United States naval base, where 8,000 men are quartered has been severed on account of the loss of the viaduct, which spanned government railroad tracks leading to the base.

Hon Wilbur C. Hall, chairman of the Commission on Medical Education in Virginia, who introduced into the Legislature the bill to create the Commission, has signed the minority report recommending location of the medical school of the University of Virginia, in Charlottesville.

BABY BORN ON PEACE DAY

After Mother Had Been Restored to Health by Lydia E. Pinkham's Vegetable Compound

Salisbury, Mass.—"For seven years I had a female trouble and such bearing-down pains I could hardly do my housework. The doctor said, 'If you can have another baby it might be the best thing for you but I am afraid you cannot.' I began taking Lydia E. Pinkham's Vegetable Compound and my baby was born on 'Peace Day'. If women would only take your Vegetable Compound they would have better health. I always recommend your Vegetable Compound to the neighbors."—Mrs. TRACY PATTEN, 2 Lincoln Ave., Salisbury, Massachusetts.

The experience of maternity should not be approached without careful physical preparation, as it is impossible for a weak sickly wife to bring healthy children into the world.

Therefore if a woman is suffering from a displacement, backache, inflammation, ulceration, bearing-down pains, headaches, nervousness or "the blues" she should profit by Mrs. Patten's experience, take Lydia E. Pinkham's Vegetable Compound and be restored to health.

SPURNED MILLION ONCE. YOUTH MAY DO IT AGAIN

Boston, June 14.—Charles Garland, a young Harvard man, Socialist and farmer, of Buzzards Bay, Mass. who last year refused $1,000,000 left him by his father, may have to turn down another fortune. He says he will do it if the opportunity arises.

Charles Tuller Garland, a million aire uncle, for whom he is said to have been named, died at Sonninz, England, June 9. Young Garland, who is believed to be an heir of his uncle, said he could not speak for his brother Hamilton, who last winter announced that he, too, would refuse his part of his father's fortune when he came of age.
